Mary, the little four year old daughter of Mr. and Mrs. George Dimensuk, of 118 Big Run street, had her neck broken about eight o'clock last night in the rear of her home, when she ran in front of the car of John Fulmore, 803 Mowavia street and the right wheel of the machine ran over her. She was immediately removed to the New Castle hospital, where she died about half an hour later as a result of her injuries.

While investigation made by Coronor J. P. Caldwell and City Detective C. C. Horner indicates that the accident was probably unavoidable, Fulmore is being held by the coroner under \$1,000 bail pending the holding of an inquest Tuesday evening at 7:30 o'clock in the office of Alderman L. C. Mantz.

Following the death of the little girl, the body was removed to the Noga Morgue on East Long avenue, where it was prepared for burial.

Sacco-Vanzetti
Lawyer Loses
First Skirmish

BOSTON, Aug. 8.—Attorney Arthur D. Hill today lost the first legal skirmish to save Nicola Sacco and Bartolomeo Vanzetti from the electric chair.

Judge George A. Sanderson, in state supreme judicial court, refused to grant a stay of sentence, refused to issue a writ of habeas corpus and refused a writ of error.

Attorney Hill had based his pleas on the alleged prejudice of trial Judge Webster Thayer and following the supreme court ruling motions for a revocation of sentence and a new trial were before Judge Thayer at Dedham for the eighth time.

The mother and daughter escaped from the blazing building by leaping from a second story porch. The mother saw Owens poised on the porch ready to leap and screamed at him, telling him to go back for the two boys. Owens ran back into the burning building, and his body was found later, clutching the body of Allen, in a flame swept hallway. The other body was found in bed, indicating that Owens had reached one boy and was bringing him out when overcome.

Fire companies from several surrounding communities rushed to the scene, but were helpless. Owens had purchased the hotel only last Friday. Origin of the flames was not determined.

A special detachment of state police was assigned to capitol guard duty by Maj. Lynn Adams, head of the state police. Major Adams said the guard were the direct result of bombing episodes in various parts of the country, but did not attribute the precaution directly to protest demonstrations by sympathizers with Sacco and Vanzetti, Massachusetts radicals.

A fool that knows he is a fool is one that knows he doesn't know all about anything, but the fool that doesn't know he is a fool is the one that thinks he knows all about anything, then he is a damn fool.

People are trying to tell you all that happened in a case that happened seven years ago when they couldn't tell you all what happened yesterday.

Just ten weeks ago, I spent an hour in Gov. Fuller's home discussing the case with him, and I do believe whatever he did he conscientiously believed to be justice.

Yours,
MAYOR EMERITUS.

Slayer Held For
Murder, Confesses

(International News Service)
HUNTINGDON, Pa., Aug. 8.—William (Harrisburg Bill) Thompson of Harrisburg was held here today on a formal charge of murder following the fatal shooting of William Brewer at a boarding house in Mt. Union.

Police alleged Thompson shot Brewer in a fight in which Brewer wielded a razor. State Patrolman James Mitchell said Thompson made a full confession.

OFFER PETITION
TO STAY EXECUTION

(International News Service)
BOSTON, Aug. 8.—Final and desperate efforts in the state courts to save Nicola Sacco and Bartolomeo Vanzetti from the electric chair were under way today, the defense committee sent out a call for a national parade to Boston in the interest of the two men and a death watch at the state house and state prison the night they are executed.

At the same time, Edward Holton James, millionaire nephew of the late Henry James, novelist, and Professor William James, Harvard psychologist, after spending the night in a cell in the Back Bay police station, and three others were up for arraignment in police court as the result of the breaking up by police of a Sacco-Vanzetti rally on Boston Common.

The defense committee's call, which asked for strikes, protest meetings and a march to Boston as a "demonstration of solidarity behind these workers," was issued as the legal moves were on in the state courts and plans were made to make a plea to the United States supreme court to prevent the execution of Sacco and Vanzetti, doomed to die sometime after midnight August 10 for a payroll holdup and double killing.

While the legal rush was on in the state courts, Governor Alvin T. Fuller at the state house had under consideration a defense petition for another stay of sentence. Following his review, the chief executive had decided Sacco and Vanzetti "guilty" and had refused to intervene.

ESCAPE DEATH

WILKES-BARRE, Pa., Aug. 8.—Three persons, a father and his two sons, were burned to death at Avoca, near here early today, when fire destroyed a hotel and residence owned by William Owens, 40, one of the victims.

Owens was trapped when he returned to rescue his two sons, and met death with them. The other victims were William Owens, Jr. and Allen Owens.

Mrs. Owens and a daughter escaped. The latter unhurt, and the former with minor bruises.

The eldest son was about 16. The fire, discovered shortly after 1:30 this morning, burned for nearly five hours, destroying the hotel with a loss estimated at \$25,000.

The mother and daughter escaped from the blazing building by leaping from a second story porch. The mother saw Owens poised on the porch ready to leap and screamed at him, telling him to go back for the two boys. Serious Infection
Caused By Pimple

W. M. McClelland of Croton avenue, is now confined to his home with a severe case of blood poison in the right arm, which had its inception from a pimple on his hand. The pimple was noticed by Mr. McClelland a few days ago and he scratched it in some way. The infection resulted. He is now slightly improved but his condition was considered quite serious for a time.

Opposition to the paving of Young street, between Park and Moody avenue, developed today and several property owners requested members of city council to delay awarding of a contract.

It is said that residents in favor of paving have a slight majority, but the opposition says "there is not much traffic on Young street." They claim the ravine is being filled and that Park avenue to Young street is not paved.

It is probable that council's decision will be made known Tuesday or Friday, when Councilman Burns says the city has received enough money from a recent bond issue to improve Edgewood avenue, Mills Way, East Boyles avenue and Young street, for a time.

**CALL MADE FOR
PROTEST STRIKE**

(International News Service)

NEW YORK, Aug. 8.—The perpetrators of the subway bomb outrages, supposedly in protest against the death sentences imposed upon Nicola Sacco and Bartolomeo Vanzetti, were still at large today, although five men had been arrested since early Saturday morning as suspects.

The entire city force of 14,000 policemen, mobilized at maximum strength, is not only belling every energy to run down the bombers but is exercising the utmost vigilance to prevent any further violence.

A special squad of 14 motorcycle policemen has been detailed for emergency duty to rush to any district where disorders are threatened. Two armored cars are held in readiness for instant service. Even during the world war the precautions taken were no more vigorous than those being exercised today.

A call for a one-day strike tomorrow of approximately 500,000 workers, as a protest against the execution of Sacco and Vanzetti, went forth today.

The strike call was issued by the Socialist Party, the I. W. W., the Sacco-Vanzetti Emergency Committee, which is largely Communist, and by agents of trade unions. The strikers were urged to attend a mass meeting Tuesday in Union Square.

In calling a strike, the socialist party and the trade unions' representatives asserted that they represented approximately 330,000 workers. They disclaimed any connection with I. W. W. and Communist organizations, which have issued calls for protest strikes.

The Sacco-Vanzetti Emergency Committee said that 10,000 transport workers would walk out.

Injured

William Harry, little two year old son of Mr. and Mrs. Homer Brown, of 221 Mulberry street, is in the Shenango Valley hospital in a seriously injured condition as a result of being struck Sunday on Croton avenue near Armstrong alley by the car of C. R. McConnell of 1516 Thorpe street.

The little fellow has a broken leg which was determined by an X-Ray picture, also a cut over the right eye, which required three stitches to close. An X-Ray picture is to be taken today to determine whether or not internal injuries were sustained.

According to the report made to the police by Mr. McConnell, he was not permitted to take the child to a doctor, neither could he learn the name of the child or its parents.

The father reports to the police, however, that McConnell failed to make any effort to take the child to a doctor and that it was a Mr. Hamerschmidt of Harlanburg and Clayton H. Reeves of Boyles avenue, who took the child to the doctor's office and to the hospital. The police are investigating.

**Half Day Strike To Be
Staged In Philadelphia
In Sympathy For Slayers**

(International News Service)

PHILADELPHIA, Aug. 8.—Philadelphia industries will be in the grip of a "revolt strike" tomorrow afternoon.

Approximately 50,000 members of unions here representing 189 of the 209 locals will walk out at noon tomorrow for a half-day strike and rally at certain points in the city, as an indication of their belief in the innocence of Sacco and Vanzetti, who are condemned to die in the electric chair on Wednesday in Boston.

This action was taken by the delegates of the 189 locals who met and passed the resolution yesterday without the sanction of the American Federation of Labor or the Central Labor union of this city.

Tonight another meeting will be held by delegates of 126 affiliated and non-affiliated Italian organizations, who it is expected will join in the strike.

Many of the city's industries will be temporarily crippled. It is said the needle and building trades will be closed down and that there will be few men in machinists and allied trades who will be at their jobs when the zero hour strikes.

The entire city force of 14,000 policemen has been detailed for emergency duty to rush to any district where disorders are threatened. Two armored cars are held in readiness for instant service. Even during the world war the precautions taken were no more vigorous than those being exercised today.

A youth who said he was John Marshall, 19, was arrested as a suspect. He announced he was penniless but in a few hours would have \$500 because he was going to blow up the subway at the Pennsylvania station and had been promised the \$500 in payment by "three foreigners." He was sent to a hospital for observation.

Detectives, it is understood, are running down several clues today. The blast has been attributed to sympathizers of Sacco and Vanzetti.

FRANKLIN, La., Aug. 8.—Preparations were under way here today for appeals in the cases of Mrs. Ada Bonner Leboeuf and Dr. Thomas E. Dreher, alleged lovers, convicted on charges of first degree murder of the woman's husband, James Leboeuf by a circuit court jury here late Saturday night.

James Beadle, backwoods hunter and trapper, the third of the trio to be found guilty of Leboeuf's murder, but for whom the jury recommended mercy, will serve a life sentence. He appeared well pleased with the jury's finding.

Mrs. Leboeuf, the first woman in Louisiana to be found guilty of first degree murder without recommendation of mercy, was disconsolate today.

Mrs. Leboeuf, Dreher and Beadle were found guilty Saturday night of slaying the woman's husband in Morgan City on the night of July 1. The body of the dead man was found six

NEW YORK OFFICER
HASTENS TO BOSTON

(International News Service)
NEW YORK, Aug. 8.—New York and Boston police today maintained a sharp watch on the Boston home of a man known to be a Sacco-Vanzetti sympathizer, whose Packard sedan was seen speeding away from the scene of the second subway bombing here late Friday night.

These developments in the subway bombings, regarded by the police as the most important since the double blast sent terror through the city, were disclosed today when it was found that Detective Christopher Kelley of the bomb squad had been sent to Boston to cooperate with Boston police in finding and questioning the man.

A young recruit policeman saw the sedan with the Massachusetts license speeding north on Fourth avenue just after the bombing of the Interborough station at Fourth avenue and Twenty-eighth street. He noted the license number, and the fact that there were a number of swarthy-faced men in the car. But he did not attach great importance to his discovery and did not report it for several hours.

When he did report it, Inspector Coughlin and Captain Reynolds of the bomb squad immediately dispatched Detective Kelley to Boston.

Held In Death

A new system concerning the keeping of boys clothing while they are swimming in the Y. M. C. A. pool has been inaugurated in the boys department at the local "Y."

Heretofore the boys clothing has been kept in lockers. At various times articles belonging to the boys have been lost and never found again.

Now the clothes will be kept in baskets with numbers on them. The boys will be given checks with numbers corresponding to numbers on the baskets which their clothing is in and the baskets will be kept upstairs.

Classes are being selected at the present time. Now as the camping season for the "Y" boys is over, they are looking to the downtown "Y" for their amusement. The swimming pool is being used considerably.

Mercer Left Too High,
He Says**

Joseph Anderson appeared before council today and complained that due to a change in grade his property at Lincoln avenue and North Mercer street has been left 22 inches higher than the street.

Anderson charged that it not only leaves his property "in the air" but also "strikes civic beauty."

An ordinance was passed in March changing the grade so it would affect sections of North Mercer street in the hollow and at Hoyts.

Evidently the grade does not conform at the point where the Anderson property sits, according to his statement.

tha Beverly and Thomas Johnson, they had gone to 118 Big Run street, where there is a double house and other houses in which four families reside, to visit a friend of Fulmore's.

The friend was not at home. The Fulmore machine had been driven into the rear lot of 118 Big Run street.

Coming out and getting into the machine, Fulmore had to back his machine twice in order to get it so that he could drive out into the alley in the rear.

He had hardly gone forward more than six or seven feet after getting his machine backed around, when little Mary Dimenczuk, evidently running to her home, which was one of the several on the lot, came out from behind an outhouse on the lot, directly in front of the machine.

The machine had just barely got started and there was no opportunity for him to stop the machine before it struck the little girl.

She was hit by the right front wheel, which passed over her body, causing the injury which resulted in death.

A neighbor woman picked up the little girl and the mother in turn took her from that woman. Fulmore had the mother get into the car with the injured child and accompanied by another woman from the neighborhood and with Yutha Beverly on the running board, they rushed to the New Castle hospital in the hope of helping the injured child.

Owing to the nature of her injuries, she died shortly after being admitted to the hospital.

The police officers answering the call found Fulmore and his companions at the scene of the accident a short time later and took them to the police station pending an investigation and the arrival of the coroner.

After visiting the scene of the accident and viewing the body of the child, the coroner placed Fulmore under bond for his appearance at the inquest.

Funeral Tuesday at 2 p.m. from Russian church on Moravia street. Interment in Greenwood cemetery.

Delegates To Hear Talk On India

NEW WILMINGTON, Aug. 8.—Tomorrow evening the delegates at the New Wilmington Missionary conference here will be able to meet and enjoy M. H. Joachim, a native of Calcutta, India, who is regarded as one of the foremost authorities on India, her people, and her problems.

After graduating with honors from the University of Calcutta where he received degrees in English literature and philosophy, Mr. Joachim completed his training in Europe and America and is regarded now as a talented author and lecturer.

During this summer Mr. Joachim has been lecturing on five major subjects: "India, Her People and Their Problems", "Mahatma Gandhi, His Principles and His Career", "Political Developments in British India", "East and West in a New World Renaissance" and "Rudyard Kipling, Is he an Authority on India".

But tomorrow the gifted native of India will touch parts of all his other topics in speaking on the subject "The Free Gift". With his marvelous command of English and accepted reputation as a lecturer, it is expected that this young graduate of Calcutta university can do no less than give the sincere treatment of his subject coupled with his masterful delivery that has won him the plaudits of audiences wherever he has lectured.

During this summer Mr. Joachim has been lecturing on five major subjects: "India, Her People and Their Problems", "Mahatma Gandhi, His Principles and His Career", "Political Developments in British India", "East and West in a New World Renaissance" and "Rudyard Kipling, Is he an Authority on India".

But tomorrow the gifted native of India will touch parts of all his other topics in speaking on the subject "The Free Gift". With his marvelous command of English and accepted reputation as a lecturer, it is expected that this young graduate of Calcutta university can do no less than give the sincere treatment of his subject coupled with his masterful delivery that has

WEDS THOMAS BOYLE

A quiet wedding was solemnized Saturday afternoon at 1 o'clock at the parsonage of the First Presbyterian church of Mercer, Pa., when Miss Louise N. Kirker, daughter of Mr. and Mrs. Frank Kirker of Hamlin street, became the bride of Thomas J. Boyle, son of Mr. and Mrs. J. H. Boyle, son of Mr. and Mrs. Leslie Mountford officiated with the ring ceremony.

The bride was attractive in a gown of blue crepe Elizabeth with corresponding accessories.

Mrs. Boyle is a graduate of the New Castle High school class of '25, attended Slippery Rock State Normal school, and for the past two years has been a teacher in the county schools.

Mr. Boyle is a graduate of the New Castle Business College, and is at present employed with the National Biscuit Company at Wheeling, West Va.

After a southern trip Mr. and Mrs. Boyle will reside in Wheeling. For traveling the bride was attired in an ensemble of black and white.

REFORM IN EDUCATION

THE prevalent discontent with the modern method of education, the fear that it is not yielding entirely satisfactory results and the desire to give it a turn in a more beneficial direction were recently voiced by President Hibben, of Princeton University, in an address to the alumni of that institution. Dr. Hibben's opinion is that all the institutions of higher learning in the United States are open to the criticism that in dealing with undergraduates they do not sufficiently place upon the student the burden of thinking his own way into a subject, do not treat him as an independent co-operator with the teacher and through the system of recitations and examinations makes him depend too much upon his memory.

Hence, instead of the time-honored method now in vogue, he would confer at least on the upper-class men—that is, on juniors and seniors to the exclusion of freshmen and sophomores—the privilege of conducting their own original and independent study. He would make of them pioneers and explorers, no longer handled, but going forward on their own account and in their own way to the discoveries and conclusions to which their researchers would lead. Thus he hopes that the attention of the student would be switched from the absorption of easily memorized facts to the development of the mental processes of examination, analysis and deduction—processes which the graduate will be expected and called upon to carry on in later life, if he is to be a success in his business or profession and if he is to add any quota to the general welfare.

It may at first sight seem that Dr. Hibben unduly depreciates the value of memory, which is in reality a great faculty, with much dependent on its continual exercise but inasmuch as he proposes at the end of the senior year a comprehensive examination designed to bring out the results of the study pursued during the two previous years, it will be seen that, even under his proposed scheme, memory still counts for a good deal.

Other objections will doubtless be taken to the reform suggested by Dr. Hibben, but he has at least put forward a constructive idea which, when licked into shape, may eventually lift our educational system from the rut into which it has, more or less confessedly, sunk.

TOO MANY LAWS

ONE of the strangest political tendencies of our time is the suddenly increased faith of legislators in the power of laws to enforce themselves once they are reduced to writing. No belief has been so continuously and thoroughly discredited, yet none is so warmly alive. Every political philosopher from Montaigne's day to this hour has recognized that the best government is that conducted with the least law and machinery.

Yet about 20,000 bills were introduced in the last congress, and many unsuccessful entries will be reintroduced in the next. Naturally, in this welter of law, passed and proposed, a substantial proportion is entirely uncalled for and quite impotent.

A multitude of evils attend the naive faith of legislatures in the auto-enforcement capacity of law as represented by words on a piece of paper. One is an inevitable weakening of respect for all government born of a disregard for its more outlandish aspects. Another is the uninterrupted encroachment of government on the governed. A third and most distressing evil is the appalling expense attending the creation of multitudinous new bureaus and of offices provided for in these various Niagars of law.

The time may come when a candidate pledging himself to nothing but the repeal of two laws for every one created will be generally supported.

ANOTHER MYSTERY

SOLOMON'S enumeration of earth's mysteries was limited to four—and they may have included the outstanding puzzles of his day.

But if he were living now and his wisdom were still functioning at maximum efficiency he would doubtless add many more mysteries to his list—mysteries that have come with modernity. And if he should pick those really hardest to solve, the way of the subject with the news camera would be given a foremost place among those added. There seems to be something about consciousness of a focused lens that stirs even the most dignified persons to simpler and indulge in silly nods and gestures and to move their lips in unintelligible fashion.

There is the kernel of the mystery. What is it that they say? Statesmen, scientists, movie actors, artists, pugilists, winners of beauty contests—all seem obsessed with the notion that they must say something. If what they say is as inane as most of them appear when saying it, the film does well to be silent.

Anything called "a necessity in every household" is made of tin and gets out of fix next day.

It is easy enough to be pleasant when one sits with one's wife and chats but the husband worth while is the one who can smile when he pays for her dresses and hats.

The people of this country don't seem to be eliminating many railroad crossings, but we can't say as much for the crossings.

We suppose that the most painful thing that confronts a resident of Florida these days is to read that nearly all the planes are hopping off from California.

The Presidential bombshell created several boom shells.

A titled woman owns and directs the operation of a laundry in London, that is honest work, and much better than slicing off the tails of the bourgeois as most of the titled people do.

This is the time of the year when the beauty selections are being made with a view to bring the leading beauty at the Atlantic City pageant over Labor Day. Every girl who goes to a bathing beach should look her pretties for she doesn't know when she will be chosen as "it" to represent some city.

The superintendent of police in Pittsburgh and the vice crusader there were both married recently. Nothing like having all the excitement at one time. They have both been married before and both married young women.

One hundred million dollars in gold is to be coined this year at the mints of the country. This added to the gold we already have makes a big pile in the favor of the United States. Personally we are glad to know that more gold coins are being made. Next March 12th as usual there will be \$5 gold pieces.

At Ridgway, Pa., man charged with murdering his wife wants out of jail on bail. He pulled that old gag of shooting at something and the bullet glanced and hitting his wife. He evidently has no thought of being executed for his crime according to his publicly expressed desires. They seldom admit men to bail who might be hung or "cooked."

There is talk of putting a ban on Mexicans coming into this country. If it is ever done every white man in California will starve to death and so will many in neighboring states of Arizona and New Mexico. The Mexicans and Japs and Chinks are the only humans that do any work worth while on the Pacific coast.

Former Governor W. O. Lowden, when asking to comment on his candidacy for the Presidency following Coolidge's "I do not choose" message, says that no man ever ran from the Presidency. He is forgetting 1920 when he ran away from it by refusing to take the Vice Presidency position. He'd be where President Coolidge is today if he had accepted.

A young woman bandit in Michigan was given a sentence of from 3 to 15 years. All we can say about her is that her bobbed hair will be quite long by the time she is freed from the big stone pile.

Why not give to Mount Vesuvius the name of Mussolini? It is the volcano in Italy that is always spitting fire and popping off. Poor Old Mount Blanc is quiet and inoffensive, why give it such an inappropriate name?

Married people are less likely to become insane than single ones we are informed now. Well, here is one thing that married life does to a fellow that can be claimed to be an advantage. Broke but sane, how's that for a title for a married man?

Alaska now wants to become a regular state of the United States. Let it go out and work up a first-class election scandal or two and we'll consider the matter.

Domestic serenity once more flows like oil over the affair of Angelus Temple. Blessed are the peacemakers for they shall divide 50-50.

Over 50,000 American tractors were exported to Europe last year. Now if we had some way of exploring our intractables everything would be jake in this country.

There is a movement on foot in London to discard the wearing of

trousers by men on account of them not being sanitary. Many we see worn do not look very sanitary, but would dirty men keep any other kind of duds any more sanitary? A dirty man is a dirty man and he always will be.

Our humble opinion one of the biggest men spoken of in this country for president is Ex-governor Frank O. Louder of Illinois. He not only has the brains but knows how to use them in addition is a handsome looking chap and if looks counts for anything with women he will be the next president if they see him.

Lawrence county has fared well in the building of hard surface roads. We stand third in Pennsylvania in paved highways. More highways are coming to us, but all semblance of scrapping should be eliminated. When the first road was built here every farmer wanted it to go past his farm and as soon as we got rid of everyone having a road we began to get somewhere. Do not fight about the location of any road and we will get them all sooner or later.

The superintendents of police in Pittsburgh and the vice crusader there were both married recently. Nothing like having all the excitement at one time. They have both been married before and both married young women.

It is reported that a lady died in Pittsburgh from the effects of worrying over the fact that her neighbors were gossiping about her. If all ladies worried that strenuously about such a common thing the undertakers would be justified in not advertising for business.

It Ought to be Stopped.

"There is no chance for us any more complained a young fellow out working. Everywhere women are snapping up the best jobs. Now just look at that!" and he pointed to two pretty girls meeting nearby rapturously kissing each other.

"Well what of that?" asked one of his listeners.

"Oh just another woman doing a man's work," replied the youth bitterly.

That may mean to child life as much as the admirable fight against impure milk made by Nathan Straus.

Scientists cut a little door into the "rumen" or second stomach of the cow, and deprived her of all food containing vitamin B. Nevertheless, in a little incubator in that second stomach the cow produced the precious vitamin B in profusion.

This country, as everybody knows, has more miles of railroad track than any other country in the world.

Something that ought to make railroad managers and their stockholders think is the fact that "common carrier" motor omnibus lines have more miles of bus routes than railroads have of rail lines.

Two hundred and seventy thousand miles for the buses, 257,000 miles for the railroads.

When airplanes begin competing with the railroads and buses the situation will be more complicated.

Children in the schools now will tell THEIR children: "I remember when my father used to travel long distances in the railroad train. When he went to California he had to sleep four nights on the train."

A dear little moving picture star interpreting Hawthorne's "Scarlet Letter" appears on the billboards with a downcast eye and a large red "A" on her chest.

One modern young lady asked another, "What does the 'A' stand for?"

"It stands for advertising," was the prompt reply. "That's all the moving picture people think about."

Russia, like all countries in revolution, would fight with enthusiasm, and probably fight VICTORIOUSLY.

We have been making a mistake about the Reynoldstown school reunion. John Snyder, the boss of the association, tells us that all who attended previous to 1890 are eligible to attend the reunion on the 16th of this month. If all attended who were entitled to would have to hold the affair in the fair grounds. You younger ones try and go.

Awaiting a Cyclone.

Sauces and Religions.

The Cow's Stomach.

Slight Misunderstanding.

By ARTHUR BRISBANE
(Copyright, 1927, By N. Y. American, Inc.)

Mr. Overly of Kansas City has been expecting a cyclone for the last 40 years, and still expects it, although it hasn't come. He now builds himself a "tornado-proof roof" room, with walls of concrete, reinforced with a "cyclone cellar," also of thick reinforced concrete.

If the tornado doesn't come in his lifetime, Mr. Overly will feel much annoyed, like the man carrying accident insurance who never had an accident.

Millions of Asiatics and other believers in "Kismet" will tell Mr. Overly that if a cyclone is to get him it will GET him, no matter what he does, and will tell of the ancient, warned that he would be killed by a falling house. He then spent his days in the open air to defy the prophecy, but an eagle picked up a turtle, dropped the turtle in its house of shell, on the man's head and killed him.

This writer can testify that when cyclones did come in Kansas City they were efficient. One, a funnel-shaped yellow cloud coming down the Missouri river, climbed the bank just above the old Coates House, and went across the city, cutting houses in two, as though they had been cut by a gigantic knife.

One of the beautiful Chouteau girls of St. Louis, in Kansas City at the time, followed the cyclone in a two-horse hack to see what it would do. It did almost everything.

Voltaire, who visited England, described that land as having one sauce and many religions. He preferred France with one religion and many sautes. Things have changed little. An English woman, sister of Lord Ashbourne, born a Protestant, granddaughter of an Orangeman, changed her faith and shot the Italian ruler, Mussolini, in a religious frenzy. She had previously attempted to kill her God. She was crazy.

One English family connected with the Stanleys and the Russells, includes Bertrand Russell, said to be the ablest living mathematician, an ultra radical, believing in no religion. Another Protestant member of the family became converted to the Jewish religion. Another is a Mohammedan by conversion, and still another is, or was, a monsignor in Rome.

This news will not sell extra papers, like a Dempsey-Sharkey fight, but will be important long after Dempsey and Sharkey cease to be important. Pennsylvania State College has discovered that the vitamin B, so important to life, is manufactured by the cow in her stomach in great quantities.

Scientists cut a little door into the "rumen" or second stomach of the cow, and deprived her of all food containing vitamin B. Nevertheless, in a little incubator in that second stomach the cow produced the precious vitamin B in profusion.

Tolstoy has done more to spread the renown of Russia than all her warriors.

This throws a welcome light upon true patriotism which is found in that harmless rivalry for achievement by the members of the various national groups.

There is no bad blood in this competition. There is nothing gained for one country which is not equally valuable for the whole world.

We are learning that to be a good world citizen and the applause of mankind is quite as valuable as the applause of one's fellow citizens.

In order to elevate our country and to magnify it, it is no longer necessary to go out and kill somebody or annex some other territory; it is better to do something that shall excite both the emulation and the applause of the whole world.

True patriotism consists

Body Of Former "Rough Rider" To Be Buried In Arlington Cemetery

(International News Service) WASHINGTON, Aug. 8.—Major General Leonard Wood will be laid to rest in Arlington cemetery among his comrades of the "Rough Riders" regiment which he commanded during the Spanish-American war.

Burial will be tomorrow with full military honors.

In all army posts the colors were at the half staff today in honor of General Wood. He had a spectacular career in the army, rising from a surgeon to an officer of the line, and finally to chief of staff, the highest post in the military command.

His rapid promotion resulted in some measure from his intimate friendship with Theodore Roosevelt, whom he served in the Spanish-American war.

His career was climaxed by his appointment as governor general of the Philippines, a position he held at the time of his death in Boston.

Burial in Arlington.

Accompanied by Mrs. Wood and a military escort, General Wood's body will arrive in Washington early tomorrow and will be taken immediately to Arlington cemetery. At the union station, the military escort from Boston, will be augmented by the third cavalry, the 15th field artillery, a battalion of infantry and a detachment of engineers. The procession will move slowly along Pennsylvania avenue, and then across the Potomac to Arlington. Ceremonies at the grave will be brief.

In a message of condolence to Mrs. Wood, Hanford MacNider, assistant secretary of war, declared:

"Every citizen who has our good at heart mourns with you."

The army of the United States stands at last salute to a great soldier, a great administrator and a great American."

Wood served in the Philippines since October, 1922, being appointed by President Harding.

There was considerable speculation in Washington today as to Wood's successor. Several names were mentioned, the more prominent being Carmi Thompson of Ohio, who made a special investigation of the islands for President Coolidge Henry L. Stimson, ex-secretary of war and President Coolidge's special envoy to Nicaragua, and ex-Senator James W. Wedsworth, Jr., of New York, who as chairman of the state military affairs committee became familiar with the Philippine administration.

The price of lead is rising, due, probably, to the demand from gunmen.

manding General of the Philippine Department." Quezon commented: "Everybody knows Wood and I disagreed on almost every fundamental issue affecting the Philippines, but during all these years I have never had personalities enter into my dealings with him."

Relations Friendly

"On the contrary, our personal relations have always been friendly. I admired the courage with which he fought for his ideas and he never resented the frankness with which I expressed my views to him when we weren't in accord. He was always courteous with me. He was a hard working chief executive and always determined in his purpose to do the right thing as he saw it."

Speaker Manuel Roxas of the lower house was "painfully surprised" by the news of Wood's death. "I mourn his loss," Roxas said.

Senator Sergio Osmeña, generally considered the most influential Filipino political leader, praised Wood for "always trying to do his best and what was, in his honest opinion, right."

Rear Admiral Summer E. W. Kittelle, Commandant of the Cavite Navy Yard, was "inexpressibly shocked" by news of the death of his life-long friend.

"No man in our generation has served America in greater or more unselfish degrees," Kittelle exclaimed. "As a soldier and as a statesman he will be genuinely and universally mourned. He will pass into history as the greatest of colonial governors."

His career was climaxmed by his appointment as governor general of the Philippines, a position he held at the time of his death in Boston.

**Jail Sentences
And Fine Imposed**

Three men arrested over the week end by the city police and charged with disorderly conduct, were given jail sentences in two instances and a fine in the third instance.

Clifford Jackson was given sixty days and George McClain thirty days in the county jail in default of fines assessed. James Fraley, charged with disorderly conduct in connection with a fight said to have been staged on Greenwood avenue, was fined \$25.

James, who spent the night in a Back Bay police station, took a seat in the prisoners dock when he was led into court. Asked to stand when his name was called he refused saying "I refuse to stand up before the courts of the kaiser and I refuse to stand up here."

Married Men Not So Courteous As Unmarried

It is not often nowadays that one hears much about the so-called masculine courtesy. But it still exists. If you doubt it, you can ask any elevator boy. He will tell you.

It is a strange thing that the married men of New Castle are much less courteous than are the younger bloods. Perhaps it is because the married man will not remove his hat in an elevator, while an unmarried man invariably will doff his headpiece in respect to the once weaker sex.

As a general rule, though, men are courteous. It will be noticed that on many of the local elevators, especially during the rush hours, that men will get off and wait so that the office girls may ride down stairs to get their lunches.

Although the life of the elevator boy is now and then filled with thrills he too has his inhibitions. And one of them is a pest. "A pest," according to the elevator boy, is a man or girl who is always running in and

out, or going up and down, at least once every ten minutes. When one stops to consider that the average elevator boy makes as many as 1,100 trips a day, he can see that each one counts.

But the job has its lighter moments. At the end of each business day a string of young males can be seen waiting outside of almost every office building. It is the job of the elevator boy to notify each girl that her young man waits below, and often he must take back a message stating that the young lady in question is busy—busy powdering her nose and will not be able to see the young man for a few minutes.

And often the elevator boy has time to ponder on the sense of time of the eternal feminine. His philosophy runs something like this: Girls that are due at the office at 8 o'clock arrive at 8:30 girls that are due at 8:30 arrive at 9, and girls that are due at 9 arrive most any time. So, he thinks, what is the use of trying to dope them out?

Expect 1000 At Annual Reunion Of 332d Infantry

STEUBENVILLE, O., Aug. 8.—The sixth annual reunion of the 332d infantry and regimental band will be held in Steubenville Saturday and Sunday September 3 and 4 with the Fort Steuben as headquarters. More than 1,000 members of the regiment will attend the reunion.

The 332d was recruited almost entirely from Ohio and Western Pennsylvania and trained at Camp Sherman, Chillicothe, as a part of the 83d division commanded by General E. F. Glenn. It sailed for France in June, 1918 and was chosen for America's representative on the Italian-Austrian front after inspection by Gen. Pershing, while billeted in the small towns in the foothills of the Vosges mountains.

Arriving in Italy in July the regiment while under the direct command of Col. William Wallace was attached to a British division of the Third Italian army corps. Here it was put through a period of intensive training with the Arditi, Italy's famous shock troops.

The 332d was picked as advance guard in the big drive to the Tagliamento river. It took part in the victorious battle of Vittorio-Veneto which brought the war to a close on the Italian-Austrian front on November 4 just seven days before the general armistice was signed in France.

The regiment had reached Cormons, Austria, on a march to a new front when news was received of the armistice with Germany. They were there split up to represent the United States in allied occupation.

The first battalion returned to Treviso the second battalion was sent to Cattaro on the lower Dalmatian coast and the third battalion took part in the occupation of Flume, all three being important movements.

**Steinway Fortune
Goes To Widow**

NEW YORK, Aug. 8.—The \$5,000,000 estate of Frederick T. Steinway, president of Steinway and Sons, piano manufacturers, will pass to his widow, the former Julia Cassebeer, it was disclosed recently with the filing of this will.

On her death the property will pass to Mr. Steinway's nephew, Charles M. Steinway, Mountain Lakes, N. J.; two cousins, William R. Steinway, of London, England, and Theodore E. Steinway, of New York, and a brother-in-law in New York.

Corpse Is Abducted By One Kin Group

KANE, Pa., Aug. 8.—The unusual proceeding of the kidnapping of a corpse at Smethport, 25 miles east of Kane. A former Smethport woman died in Buffalo, N. Y., a few days ago, leaving a divided camp of relatives. A daughter of the woman obtained a burial permit in Buffalo and engaged a Smethport undertaker to take charge of the body upon its arrival in Smethport on the Pennsylvania railroad. The husband instructed an Austin undertaker to take charge.

Both hearsears were at the Pennsylvania station in Smethport when the train bearing the corpse arrived. The daughter had furnished one undertaker with credentials to take charge of the body and while he was presenting them to Frank Bloomster, station agent, the Austin undertaker and his assistants quietly picked up the casket, placed it in their hearse and started on the 40-mile drive to Austin. Efforts to overtake the fleeing hearse were started too late and the remains were taken to Austin, where funeral and burial took place quickly.

Boy Scouts Spend Week At New Camp

GROVE CITY, Pa., Aug. 8.—Sixty boys of the three local troops of scouts which are now at camp at the Elliott farm along the Slippery Rock Creek completed the first week of real camp life. The first week was spent in making the site in ship-shape condition and a regular scout training inauguration. Afternoons are spent in swimming and special scout work. The evenings are given over to most delightful camp fire programs held a short distance from the camp proper, in a most ideal spot on a bend of the creek. With the headquarter men in charge, the first campfire was held Wednesday evening. Scoutmasters and their families were in attendance. A large number of guest were entertained at the camp over the weekend. Markers one mile on either side of the driveway to the camp have been erected. The site is located about five miles from Slippery Rock on the New Castle road.

One Killed And Fourteen Injured In Auto Accidents

PITTSBURGH, Pa., Aug. 8.—One dead, one seriously injured and 13 others hurt was the toll of automobile accidents over the week-end.

William Chalmers, 60, 441 Swissvale avenue, Wilkinsburg, died in the Pittsburgh hospital of a fractured skull, sustained when struck by an automobile in Penn avenue near the East Liberty station.

Nellie Abrillo, 17, 1057 Wheeler street, is in a serious condition in the Pittsburgh hospital from injuries sustained when run down by an automobile while crossing Broad street near Station street, last night.

She suffered a possible fracture of the skull and a companion, Sarah Vesco, 16, who witnessed the accident, was treated at the hospital for shock. The driver of the car, Ralph L. Rayes, 5617 Rural street, was arrested on a charge of reckless driving and released in \$1,000 bond.

Council Elects Coulter As Clerk

GROVE CITY, Pa., Aug. 8.—The regular monthly meeting of the Grove City council was held Friday evening at the council room. After a long and stormy session which lasted until 12 p. m., along with the regular business, council elected Harold W. Coulter, former employee of the Union Heat and Light Company of this place, to the position of city clerk. Mr. Coulter was elected from a list of 20 candidates who desired the position left vacant by the sudden resignation of R. M. Russell, and his duties begin at once. Several traffic ordinances were passed among which was one prohibiting the making of "U turns" on Broad street from Main street to Lincoln avenue. Several ordinances were passed with regard to the paving of North Broad street, which were required passed by the state.

Grove City Golfers To Meet New Castle

GROVE CITY, Pa., Aug. 8.—The Grove City Country Club golf team will motor to New Castle to meet the New Castle Country Club this Wednesday for the annual golf match. Grove City defeated New Castle on the local links last year and will take 25 players to New Castle in an effort to repeat the past performance. The Grove City Country Club is enjoying a very successful year. They have been playing neighboring clubs each week. Last week they defeated Meadville here.

Mystery Magnolia Blooms Out Of Turn

ROCHESTER, N. Y., Aug. 8.—A magnolia tree bearing five full blossoms, considered very unusual at this time of the year, is to be seen in the yard of R. Edmond McMann.

Residents of the street and others interested in horticulture are watching the tree closely. The magnolia tree as a rule blossoms for a short time early in the spring. No satisfactory explanation has been found for the present blossoming of the McMann tree.

Truck Driver Held For Manslaughter

PITTSBURGH, Aug. 8.—George Darling, of Pittsburgh, has been ordered held for the grand jury on a charge of manslaughter by a coroner's jury in connection with the death of Joseph Little, 33, of Murrysville, Pa. Little died in a local hospital after the motorcar he was riding in had collided with a truck driven by Darling. Darling is free on \$2,500 bond.

Monkey In Zoo Buys Tobacco For Keeper

SPRINGFIELD, Mass., Aug. 8.—Tarzan, Springfield's pedigree mon-

key, whose birth three years ago was hailed as a scientific achievement because of the established list of ancestors, born in captivity, that he possessed, celebrated his birthday by buying his keeper a can of tobacco.

Tarzan has collected all sorts of contributions from visitors to the Forest Park Zoo, but in the last month or so some of the visitors got into the habit of tossing cents into

the cage. Tarzan liked to chew the coppers, perhaps cutting his teeth upon them.

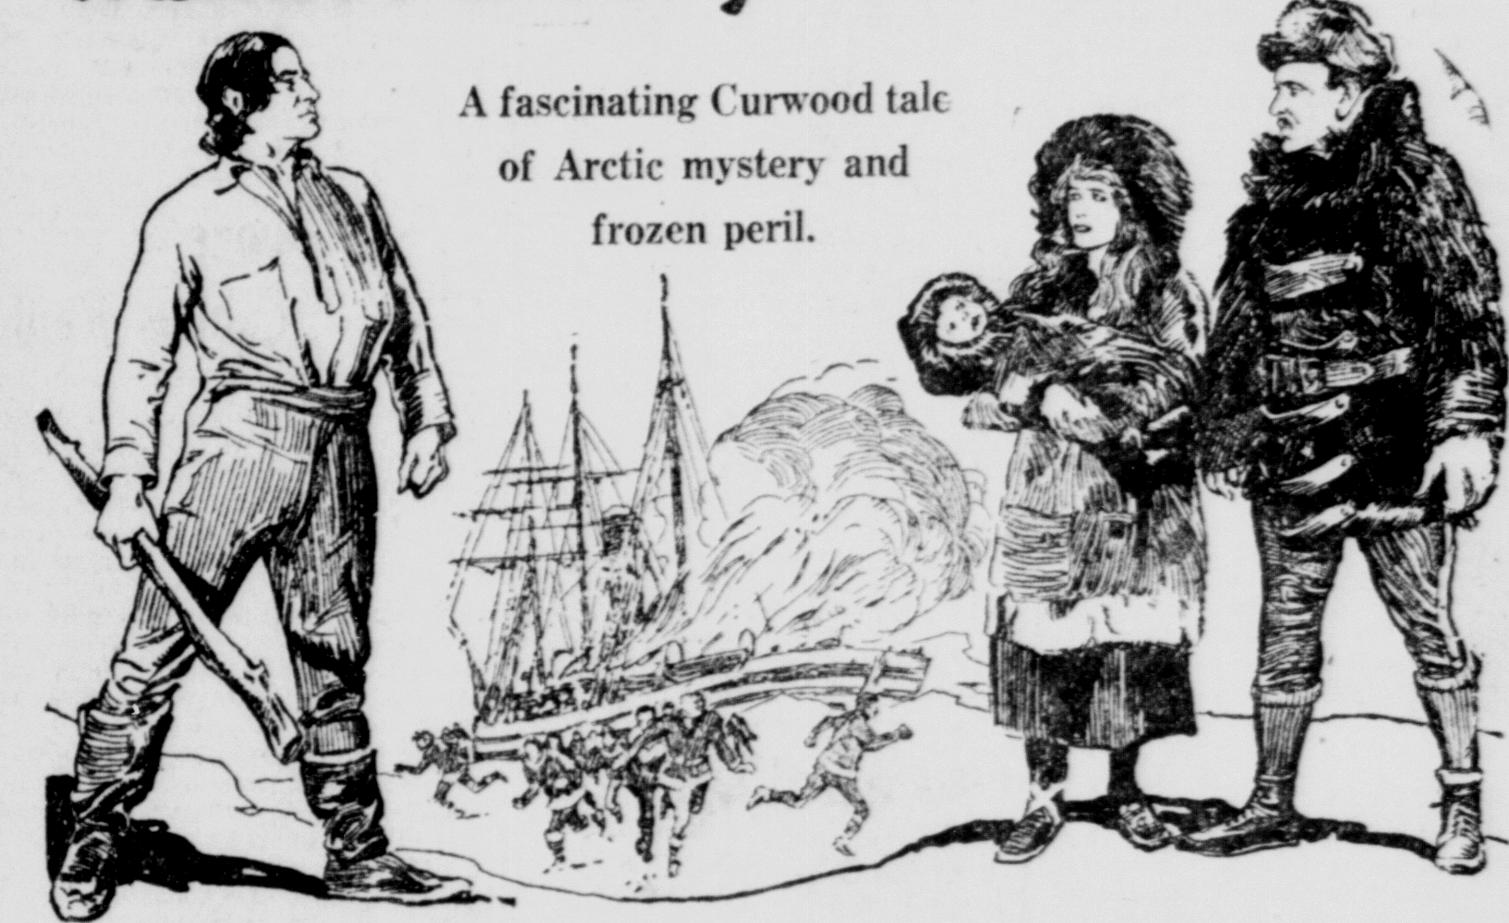

The sum total of the collection reached 15 cents today and the tobacco was purchased.

Tribute To "Old Main" Paid By Chambers At Laying Of Cornerstone

NEW WILMINGTON, Pa., Aug. 8.—With weather prevailing that seems to be traditionally Westminster's, and hundreds of old grads and friends of the college present, the cornerstone of Old Main Memorial was laid Saturday afternoon, thus marking the formal beginning of the building that will replace the Old Main burned last January.

Because of the unavoidable absence of Acting President Dr. J. C. Kistler of Pittsburgh, Dr. W. D. Irons of McDonald, Pa., acted as general chairman of the day, with Dr. W. Charles Wallace, president of the college, in the role of master of ceremonies.

J. K. Quay of Egypt, who is home on a furlough, offered the invocation and Rev. J. R. Neal, pastor of the New Wilmington U. P. church, read the Scripture lesson. The building committee and guests on the platform were introduced by Dr. Wallace, following which the cornerstone was put in place with each member of the building committee laying a trowel full of mortar. B. J. Blondi's band provided music for the occasion.

Attorney James A. Chambers of New Castle, a graduate of the class of 1900, was the speaker of the day. His address, though short, was most appropriate. He said:

"As we meet today to lay the cornerstone of Old Main Memorial our minds revert to the loss of that which has made this building necessary."

We may say that this structure is to replace "Old Main". That it cannot do. Its massive structure and architectural beauty may surpass the former building but the hallowed memories, the echoing tread of the

New Addition Is Planned For Home

MEADVILLE, Pa., Aug. 8.—A new two-story brick addition with basement will be erected at the Meadville Children's Aid Society and Home for still lives. Out of the ashes of "Old Main" is springing a New Main. A memory of the old a prophecy of the new Westminster. Not a greater Westminster, for greatness is not a matter of size but of character. But let us say a more adequate Westminster, a Westminster large enough to meet her growing demands. Equipped to cope with modern conditions, but still harboring and cherishing the spirit of the old. True to her traditions. Faithful to her memories. More than this we cannot ask. More than this we would not seek. And at a time like this what more can we say than "Long may she live our Mother Fair Westminster."

Aged this fall, according to plans announced Thursday by those in charge of the local institution.

The building will cost approximately \$30,000, with about half of the amount already in hand. The new addition, which will be erected at the northeast corner of the present building, will be used as an annex for the children, who are to be separated from the aged men and women.

For some time the institution has been very much crowded until the officers and directors have come to the conclusion that more room must be had.

Bids have been asked for the proposed building and must be in the hands of the building committee not later than August 15. No time is to be lost in awarding the contract if the bids are within reason and it is fully expected that the building will be entirely completed and ready for use before the spring of 1928.

First Home Of Steel In Gary

GARY, Aug. 8.—The first steel home is being erected in Gary, Indiana.

Walter Bates, president of an independent steel concern, is building it and will make it his home.

It will have eight rooms, with a combination of drawn steel an sills, girders, joists, braces, rafters, doors and window frames of the same material. The exterior will be stucco, with combination walls and ceilings.

The house will be proof against fire, tornado and earthquake, Bates says, and he forecasts that the steel home will become practical just as steel cars and automobiles have supplanted wooden coaches and motor car frames.

Kills Self As Pretty Typist Rejects Him

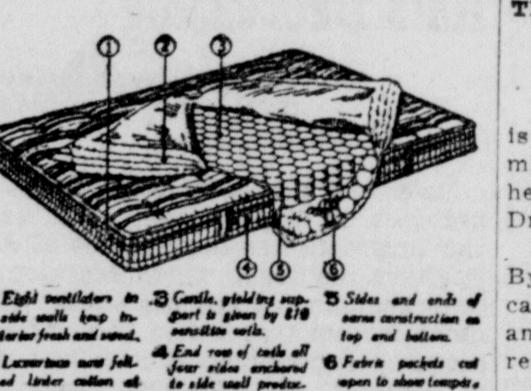

WHEELING, W. Va., Aug. 8.—Jack Gold, 31 of 10800 Bryant avenue, Cleveland, Ohio, was found with a bullet wound through his head and died in a hospital a few hours later. A note asked friends to notify Miss Ruth Murphy, pretty local stenographer, of his death. Acquaintances say Gold had ardently wooed the girl and was deeply grieved when his proposal of marriage was rejected. A razor and a bottle of poison were found on the bed with his body in addition to the gun. Gold was manager of a local shoe store.

Purse Is Stolen As Woman Kneels At Altar Praying

NEW YORK, Aug. 8.—A woman bowed in prayer in the Church of St. Francis Xavier.

A Christian brother said he saw a man, posing as a worshipper, side close to the praying woman and steal her purse.

The man, his eyes downcast piously, walked slowly from the church, and Robert Downey, the brother, followed. He stopped Harry Barrera, a painter, at the door and asked for the return of the purse.

Barrera fled. Scores of Sixth Avenue pedestrians joined the chase when Downey shouted, "Stop thief!" The prisoner was caught three blocks away.

Tax Foe Would Stay In Jail

LEWISTOWN, Aug. 8.—Mrs. Lilian Reed of Milroy, who says she would rather stay in jail than pay a per capita school tax, is free until a hearing October 1 on her attorney's petition for a writ of habeas corpus, after six days in jail here. Mrs. Reed refuses to pay the tax as a matter of principle, alleging that such tax in her case represents in actuality a double tax on her husband's pocket-book. She was in jail last year for refusal to pay, but was released on a technicality. She owes taxes for the last four years.

Sees Prosperity For Alert Farmer

STATE COLLEGE, Pa., Aug. 8.—With agriculture rated as the basic industry of the country and national prosperity considered impossible without a prosperous agriculture, Dean R. L. Watts, of the Pennsylvania State College School of Agriculture, today sounded a new note of encouragement to alert and ambitious Pennsylvania youth.

As the dean sees it the opportunities in agriculture are greater today than ever before, provided the American farmer applies sound principles in production and marketing. He declares that the courses in agriculture at the college have been organized along just such lines to give the prospective young farmer the training he needs to solve the problems of modern farm business. For it is a business, he points out, that requires the effective use of all the information and knowledge available if those who participate in it are to continue as farmers.

HIGH BLOOD PRESSURE

Serious Danger to Middle-Aged Women.

Only women can appreciate what many women suffer as they pass thru the changing period of life. Blinding hot flashes with spells of fainting and weakness, intense nervousness, racking head pains and dizziness. These are symptoms which must be watched for, as they often indicate high blood pressure.

So many times high blood pressure results seriously if it is usually dangerous to neglect it.

A licensed physician who made a study of high blood pressure developed a remedy of purely vegetable ingredients which generally relieves it. This proved so successful that it is now being sold at drug stores under the name of Norma.

As high blood pressure is a malignant disease, so is diabetes, although the system it is advisable to discover the cause and correct it by other medicines or hygienic measures while taking Norma. Although Norma is a treatment for the cure of high blood pressure, it usually gives welcome relief and a fine feeling of comfort and well-being. If you have high blood pressure, start taking Norma once and give it a chance to help you. Get Norma today at McKee's Cut Rate, Love & Megow, Eckerd's of New Castle, Inc. or any other good drug store.

Week-End Auto Toll Is Small

But Four Killed Over Week-End By Motor Accidents, Survey Shows.

THIRTY-SIX ARE INJURED, REPORTED

(International News Service) The hand of death touched Pennsylvania lightly over the week-end as automobile accidents were concerned, a survey of the state by International News Service today.

There were four persons killed in accidents, the survey showed, and 36 persons injured.

Philadelphia reported two killed and three injured over Sunday. Pittsburgh reported one killed and one seriously injured. One was killed at Ambridge and fifteen injured.

Harrisburg reports showed eight hurt there. Lebanon reported one injured while Greensburg reported four and Johnstown two injured.

Woman Found In Huge Ice Box Is Now Recovering

(International News Service) HARRISBURG, Pa., Aug. 6—Found in a semi-conscious state in an abandoned community ice box after being missing from home for ten days, Mrs. Stella Shearer, of Perdix, was on the road to recovery in a hospital here today.

The woman, for whom state police had carried on a widespread search, was located in the ice box by Edward Miller, her brother-in-law, after his wife, Mrs. Shearer's sister told him of a dream in which she saw the missing woman near the Miller home.

Mrs. Shearer was apparently too weak to raise the lid of the huge box, which was on the rear porch of an empty cottage, and had formerly been used by families of the neighborhood.

Authorities are mystified as to how the woman came to be in the box. She is too weak to be questioned.

Local Contractor Is Given 60 Days As Drunken Driver

John Burns, Arrested At Youngs-town, Feels Teeth Of New Law

YOUNGSTOWN, O., Aug. 8—Municipal Judge Jenkins availed himself of the strict penalties provided by the new law on intoxicated drivers by sentencing the first man to come before him since the law became effective last Tuesday to 60 days in jail, fining him \$100 and costs, and suspending his license to drive for six months to one year.

Burns was arrested late Friday at Market and Warren by Special Officer Myers.

Penalties possible for first offense under the new law are jail sentences of from 30 days to six months, fine of \$100 to \$500 or both. The suspension of the right to drive for six months is mandatory.

Upon conviction of a second offense the license to drive may be suspended for periods ranging from one to five years.

The old law provided penalties of from \$25 to \$100 and imprisonment up to six months.

Body Of Flier, Lost Six Months, Found

BARNEGAT CITY, N. J., Aug. 8.—The body of Lieutenant Willard O. Harris, army aviator, who, with Lieutenant William A. Gary, was lost in a Coast storm last February, was found near here yesterday, it was announced by Coast Guard Headquarters today.

The body was lashed to his parachute and had become entangled with an iron grapping hook, which was partly buried in the sand.

Fishermen reported to Coast Guards yesterday that they had seen a body floating on a sand bar just below the surface of the water. The body was in seven feet of water.

Heart Attack Is Fatal To Lawyer

(International News Service) WINDHAM, N. H., Aug. 8.—Edward T. Walker, New York lawyer who was bequeathed the bulk of the \$30 million dollar estate of the estate Edward F. Seales, eccentric millionaire, died suddenly of a heart shock today while visiting at the country home he inherited.

Walker, who was 45 years old, was the friend and adviser of the millionaire. The Seales will leave a large slice of the estate to the attorney.

Through one legal battle after another by those protesting the will, Attorney Walker won his way to the fortune bequeathed him.

Rent-A-Car Man Has Own Troubles

Five Cars Stolen In A Year But Three Of Them Are Recovered

Past is the livery stable, the shaded lanes, the livery stable nag, that wandered down them, with the reins rapped about the buggy whip. And in place of this there has sprung up a business new and strange.

Moonlit nights are no longer disturbed by a gentle cluck to Dobbin; no, now they are broken by strange shriekings.

Not all the cars one sees on the road are owned by the men who drive them. Some may have installments due on them, others may be mortgaged, while still others may be rented only for the afternoon.

Many are the trials of a man who rents cars to other people for business or pleasure. When approached, the owner of the local rent-a-car garage moaned dismally and poured forth a tale of woe.

It seems that even if he does not have his cars stolen from him very often, yet so many of them are brought back in an almost irreparable condition that "business is rotten."

In the last year, he had five cars stolen from him but all except two were recovered. One however, was taken to Boston, and it never found its way back to New Castle, while the other was taken to Indianapolis, where it was lost beyond recovery.

The object of the service is to accommodate a man whose car has broken down, and who must have a car for business reasons. Then, again, they also aim to accommodate those who wish to take a pleasure trip, but their car is broken down.

But when the car goes out of the garage, the man never knows where it is going, although he asks many questions, and gets as many answers.

The first thing that the rented car man tries to find out is whether the party hiring the car has a license, and usually he must produce it before he can take the car out of the garage. Then he must make a small deposit, just to establish his integrity. Of course, if the party is not known to the garage man, he tries to find out what he can about the man, but often he fails. But if one looks honest, the car is taken out fresh, gassed and oiled, and you are off. When you come back, if the car is all there, and there are no major injuries done to the car, you get the change from your deposit. And that is that.

Of course, if the car is smashed, the garage must stand the damage, and if the man never comes back, then the police are called.

Bootleggers sometimes use rented cars to make their runs. In that way, they avoid surrendering their own car when they get caught.

Another of the heavy renters of cars are the gay young bloods, who, for an evening, wish to dazzle their girl friends, and surround them with blaze of glory. These gentry take out a car in the early evening, get their fair ones, take them to a show, and then ride about for a while until it is time to go home.

Largest Building
For Farming Club
Planned In Chicago

CHICAGO, Aug. 8.—Plans for constructing the "largest building in the world" for housing businesses related to agriculture were announced today by the New Agriculture Club of America.

The structure, to be located just outside the Chicago loop, would have 21 full stories and a 30-story tower. It would have more than 1,000 acres of floor space.

Huge amphitheater, designed for holding live stock shows and farm exhibits, is included in the plans. Offices would be leased to manufacturers of farm machinery and farm organizations. A section of the building is to be set aside for club facilities also.

The city undertaker was ordered to bury the bodies in the prescribed manner in another part of the cemetery after investigation of complaints by health authorities and the first selectman of the town of Hamden adjoining New Haven. Potter's field is just inside the city line.

C.

R. McConnell, of 1516 Thorpe Street, reported Sunday to the police

that he was driving north on Croton avenue at Crawford avenue, when a small boy, about two years of age, was struck and knocked down by his machine. He tried to take the youngster to a physician, but the mother picked up the child and declined to allow him. She took the boy to a physician and had his injury, a small cut over the right eye, attended to. Mr. McConnell was unable to learn the name of the child.

Find Pauper Dead,

DELANEY FAVORED TO DEFEAT PAOLINO THURSDAY

Delaney Training Hard For
Big Chance To Climb
Fistic Ladder.

**PAOLINO MAY BE
IMPROVED FIGHTER**

By SID MERCER
International News Service Special
Correspondent

DELANEY TRAINING CAMP, LACONIA, N. H., Aug. 8.—A solitude that has been denied Jack Delaney for two weeks settled down over this camp today with the departure of Pete Reilly and Izzy Kaplan for New York for the last two days here. Jack can rest and meditate without being disturbed by any strident voice except that of Trainer Doc Casey and doctor seldom comes near him except when it's time to tie on the boxing gloves.

Reilly put his tricks back in the bag and Izzy packed up his camera after Delaney boxed a few rounds for the edification of a throng of Sunday visitors. The hot matches, the explosive cigars, the sneezing powder, the cold deck of cards and the snipe decoys were padlocked against a return of Reilly with more customers and Pete moved down to New York by motor.

Delaney, who has less to say than anybody around his own place, chuckled when he saw Reilly limping to his car. Jack's manager sprained an ankle Saturday night on a snipe hunt in the woods.

"I knew Pete would get it sooner or later chasing around the woods at night," chuckled Delaney. "He hasn't missed a night meeting his sightseeing expedition to the swamps and losing the customers. He missed a jump last night and now look at him. Guess we'll have to put an elevator in my corner Thursday night to get Pete up and down."

Never Talks Fights.

That's about as near as Delaney will come to talking fight. Boxing never seems to be on his mind except when he puts on the gloves. You hear little conversation about "fist-cuffs" around this camp and there are several professional boxers around.

"I dunno," says Delaney when you ask him about his opponent next Thursday night. "Guess he's a tough guy. Petell tell you?"

Delaney boxes here today for the last time. He will drive down to New York by easy stages, starting early tomorrow morning. Two pals from Bridgeport—Gene Czello and Owen Curley—who have been with him here this summer will accompany him first to Holyoke and Bridgeport and then to New York. He probably will loosen up at the Garden gymnasium Wednesday afternoon and then all the boys can get a peek at him. Mrs. Delaney, who is spending the summer here, will not leave. She has never seen Delaney fight, and, in fact, never saw him box in training until this time.

Pete Reilly thinks Delaney is a sure thing to stop Paolino. He says the Basque will not rough Jack around in the clinches or hold him close and attack the body with short punches.

Anyone who attempts to read and master the intricate code of playing rules by which the modern game of baseball is governed will be surprised to learn that the present code is only the amplification of 13 briefly worded and simple rules which were deemed sufficient to guide players 85 years ago today.

Breaks Newport Course Record By One Stroke

NEXT WEDNESDAY'S MEETINGS
IN NEWCASTLE FIELD

</

Locals Split With Tellings

New Castle Captures First Game 11 To 3, Drop 13 Inning Game 3 To 2.

DUNN-BERNHOR FEATURE HITTERS

By BUGS WALTHER
New Castle and the Cleveland Tellings broke even Saturday afternoon at Centennial field in a doubleheader. The locals captured the first contest by a score of 11 to 3. The visitors grabbed the nightcap after a 13-inning struggle by a score of 3 to 2.

The locals tried hard to make it two straight, but the Tellings showed over a run in the 13th inning of the second tilt and spoiled a well intended victory.

Meis Fans Ten

Carl "Molly" Meis, the local ace, ascended the mound for New Castle in the first tilt and pitched one of the best games of the year. Meis held the Tellings to five hits and fanned 10 batters. Except for the first inning, when the visitors tallied three runs on three hits and an error, Meis had the game under control. Meis fanned three batters in the first chapter to stop a rally. The locals found the hurling of Wilson easy to solve and banged out 13 hits.

New Castle tallied a pair of markers in the second inning on three hits, singles by Feigert, Bernhor and Meis doing the trick. A big rally in the fourth frame netted the locals six more runs.

Feigert, with four hits, featured in the first game. Meis, Dunn and Bernhor also smote the ball hard, getting two hits apiece. Dunn featured in the field with a circus catch against the left field wall.

Second Game Hardfought

Manager Steen sent Mark Jamison to the knoll in the second game, and Manager Novarro selected Dyer to oppose the Ellwoodian. Jamison breezed along in fine style for eight frames, allowing but eight hits, and gave way to Meis in the ninth as a pinch hitter. Meis later gave way to Steen.

The Tellings tallied first blood in the second game by sending over a marker in the second inning when Hunt and Fitch gummed up hard hit liners. New Castle came back and knotted the count in the fourth. Dunn led off with a triple and tallied when Bernhor singled to center.

The visitors took the lead again in the fifth frame on three hits, two of them singles, and a double by Dyer. The locals again tied the score in the sixth frame, Bernhor tripling and

riding home when Gorman fumbled a hard hit ball from Gorman.

For six innings neither team was able to cross the plate, but in the 13th the Tellings shoved over a run that decided the contest. New Castle started a rally in their half of the 13th, with Dunn leading off by doubling to deep left field, but the New Castle player was stranded at second when Bernhor and Steen flied out and Bryan fanned.

INDEPENDENTS LOSE TO PENNSY

Railroaders Find Ciotto And Norris For 19 Safe Blows

Pennsylvania railroad continues to lead the Lawrence county circuit, having vanquished the Independents 12 to 6 on the E. & A. field Saturday afternoon.

Ability to hit Ciotto and Norris gave the Pennsylvanians an easy victory though the Indie-Ayes used every possible means of stopping the blows finding safe territory.

Talk of a Spanish-American ocean race to be held next year between New York and Santander recalls that there has been no trans-Atlantic yacht race since 1905, in which year 15 yachts engaged in a contest from New York to Cowes for a cup offered by the German emperor. The race was won by the Atlantic, owned by Wilson Marshall of the Larchmont Yacht club and sailed by the famous Charles Barr.

THE FASTEST FOUR IN AMERICA

Mile-a-Minute Performance

\$875
F. O. B. Detroit—Full Factory Equipment
4-Door Sedan (Not a Coach)

Few New Cars Have Received a Welcome so Emphatic and Sincere

As Dodge Brothers expected, this brilliant new Four has instantly won a vast and enthusiastic following—is already a spectacular national hit.

Within two days after the first public showing orders were received for \$3,250,000 worth of the new Sedans.

Mile-a-minute performance at this unheard-of price is one striking reason—and here are a few of the others:

From 0 to 25 miles an hour through gears in less than 7 seconds!

Longest springbase of any car under \$1000.

25 miles per gallon of gas at 25 miles per hour.
19-foot turning radius!

Chic, smart, up-to-the-minute body lines—fashionable pastel color!

Plenty of seat-room, leg-room, head-room—a big, luxurious interior, richly upholstered!

Built to last long and re-sell high.

And the lowest priced sedan in Dodge Brothers history.

See it—drive it—and you'll deliberate no longer.

N.Y. STOCKS

(International News Service)
NEW YORK, Aug. 8.—Both the industrial and the railroad stocks moved through a narrow range of price changes at the beginning of trading today. Selling pressure on the oils and high-priced industrials resulted in a slightly lower level of prices in that section of the market, while the rails recorded moderate gains. General motors started the day about a point higher, at 225 3-4, but fell back to 222 in the early trading while U. S. Steel at 131 1-4 was unusually below the low point of last week's "Coolidge withdrawal" break in prices.

The downward movement was accelerated by the second day's increase of the professional and stop-loss selling. Late in the high-priced stocks extended from 2 to 4 1-2 points, and in many cases stocks sold lower than the low levels of last week.

Levine-Drouhin Sign Peace Terms

Sign Contract For Flight From Paris To New York City.

By FREDERICK K. ABBOTT
International News Service Staff Correspondent

PARI, Aug. 8.—Charles A. Levine and Marcel Drouhin today signed a definite contract for a flight from Paris to New York in the Bellanca plane "Columbia".

The signing of the contract climaxes a prolonged series of disputes and arguments between Levine and Drouhin, who was given a tentative contract to pilot the Columbia several weeks ago. The contract was legalized at the United States consulate.

Under the terms of the contract if any other plane crosses the Atlantic from Europe to the United States before the "Columbia" makes a start, either party has the right to cancel the contract within eight days.

"In fairness to Levine I must say that the contract is fair to Drouhin," said Charles Beach, Drouhin's attorney.

Levine agrees to pay Drouhin 100,000 francs for his services for one year and Levine also deposits a banker's letter of credit for 300,000 francs in a bank, this sum payable to Mme. Drouhin in the event of Drouhin's death. In the event that the fliers are not heard from for a month after their departure Mme. Drouhin will draw 10,000 francs monthly on account for six months, when she will draw the balance.

In the event of an accident totally incapacitating Drouhin, Levine accepts responsibility to the amount of 300,000 francs.

If the "Columbia" fails to start on its flight within three months or Levine changes pilots through no fault of Drouhin's, Levine agreed to pay Drouhin 100,000 francs.

Drouhin is to receive 50 per cent of the profits of the exploitation of the "Columbia" for one year or of the profits from the formation of any company resulting from the flight.

Duties and Powers Of Mayor Discussed

At the weekly meeting of the New Castle Rotary Club, held at noon today at the Fountain Inn, Attorney Clyde Gibson of this city gave a very interesting talk on "The Duties and Powers of the Mayor of Third-Class Cities".

Mr. Gibson pointed out that to have a fine administration in the office of mayor it is up to the man himself and not the office. He also pointed out the type of a man that should sit in the office of mayor. Mr. Gibson's talk was very enjoyable, as it will not be long until a mayor must be elected in this city.

Three ex-mayors were present at the meeting today. They were: Fred L. Rentz, Ben L. Lusk and Walter Tyler. There is another ex-mayor living. He is Samuel A. Barnes of Cedar street. On account of illness Mr. Barnes could not be present.

Arrested On Warrant And Is Granted Bail

C. Bishero was arrested over the week end by County Detective William Fleming. City Officers Hagan and Algier and a Pittsburgh officer on a warrant issued in Pittsburgh, charging him with passing a check for which there were no funds. He was placed in the county jail and was later permitted to give bail before Alderman J. Lee Cooper for his appearance at the September term of court of Allegheny county.

Greater Sheesley Show Arrives

Greater Sheesley shows have pitched their tents for a week's stand on the Cedar Street-Mahoning avenue grounds. The show was given a permit by the city last week. The show has been brought here under the auspices of the New Castle ball club of the O. P. League.

Antonio Doyno Dies In Cleveland

Antonio Doyno, of Cleveland, father of Edmundo Doyno of this city, died in that city over the weekend. The body was brought here this afternoon and funeral services and interment will be made here.

Open Air Meetings Held By Hoover Heights Church

Open air meetings which are planned to be continued throughout the month were held last night on the ball field near the school house in South New Castle. The services are being conducted by Rev. Milton J. Scripture of the Hoover Heights Tabernacle.

A small platform has been erected in which is placed an organ and pulpit. Benches were placed in the field for the audience but as these seemed inadequate automobiles and the running boards were resorted to. As these services will be held each Sunday evening of August if the weather permits more seats will be provided at the following meetings.

The pastor brought a clear and timely message on "God's Substitute For Man." His text was taken from the 29th verse of the first chapter of John, "Behold the Lamb of God which taketh away the sin of the world." Mr. Scripture said in part that John the Baptist who made this statement to some of his disciples was thoroughly convinced of its truth. John had been preparing for the coming of the Messiah who then was unknown to him. But when he received instruction from God as to his work he was also given signs to know the Christ. This is shown somewhat in his hesitating to baptize Christ and further proven by the descending dove which lighted on Christ as he came from the water. The climax was brought just then as a voice was heard from heaven which said "This is my beloved Son in Whom I Am well pleased." So John was assured that Jesus of Nazareth was the Lamb of God which was to take away the sin of the world.

A Broderick, Scotland, farmer, was troubled because his bull jumped hedges and fences. The Scot invented this eyeshade. Now the bull can't see over the tops of the barriers and, consequently, will not jump.

Experimental Rabbit Farm For Fontana, California

WASHINGTON, Aug. 8.—Fontana, San Bernardino County, Calif., has been selected by Secretary Jardine as the location of the new experimental rabbit farm, which is soon to be established by the Department of Agriculture in cooperation with the National Rabbit Federation and the Fontana Farms Company. The Bureau of Biological Survey, under a cooperative agreement with these two organizations, will finance the operation of the farm, and plan and conduct the experimental work to be done for the improvement of the rabbit raising industry throughout the country.

D. Monroe Green, associate biologist, who has been engaged in rabbit investigation work in the division of fur resources of the Biological Survey for the past two years, has been appointed to direct the experiments on the new farm and will leave Washington late in August to take up his new assignment at Fontana.

The farm will include 5 acres of land on which will be erected an administration building, a house for the caretaker, a feed storage shed, hutchess, and other necessary buildings to care for a large number of breeding rabbits. The land, buildings and other equipment will be furnished by the local unit of the National Rabbit Federation and the Fontana Farms Company. The purpose of the experimental farm is to develop reliable information for rabbit breeders and for those contemplating raising rabbits to the best methods of breeding, feeding, and housing these animals.

WOMEN OF MIDDLE AGE

Praise Lydia E. Pinkham's Vegetable Compound

Mrs. Annie Kowinski of 526 1st Avenue, Milwaukee, Wis., writes that she became so weak and rundown that she was not able to do her housework. She saw the name Lydia E. Pinkham's Vegetable Compound in the paper and said to her husband, "I will try that medicine and see if it will help me." She says she took six bottles and is feeling much better.

Mrs. Mattie Adams, who lives in Downing Street, Brewton, Ala., writes as follows: "A friend recommended Lydia E. Pinkham's Vegetable Compound and since taking it I feel like a different woman."

With her children grown up, the middle-aged woman finds time to do the things she never had time to do before—read the new books, see the new plays, enjoy her grandchildren, take an active part in church and civic affairs. Far from being pushed aside by the younger set, she finds a full, rich life of her own. That is, if her health is good.

Thousands of women past fifty, say they owe their health to Lydia E. Pinkham's Vegetable Compound.

By proving blood relationship to Arnold he received the watch from an aged woman to whom it had been intrusted by Arnold's friends with instructions to leave it to a museum if she could not locate any relatives of Arnold. The watch made by Brequet of Paris, was presented to Arnold on Christmas, 1761, when he was not quite 21.

Warren Veterans To Commemorate Battle

WARREN, Pa., Aug. 8.—The annual reunion of the Sixteenth Pennsylvania Volunteer Infantry will be held here on August 9, in commemoration of the battle of Coamo, Porto Rico, in which this regiment played an important part. All communications from veterans should be sent to J. H. West, Warren, Pa.

A muster will be held for Capt. Alfred E. Hunt camp at Memorial Hall on Wednesday night. This camp has gained 48 recruits this year.

Churches To Combat Highway Accidents

Campaign To Be Launched By Road Association To Be Intensive

WASHINGTON, Aug. 8.—The Federal Council of Churches in America has passed an official resolution condemning the appalling loss of life on the public street and highway and calling upon the ministers of the United States to do all in their power to eliminate the accident evil, the American Road Builders' Association stated here today. The latter organization will make a direct appeal to 30,000 churches in the United States to launch a campaign in behalf of Highway Safety during the month of October, and in addition will carry the safety movement into all schools, civic clubs and motorist organizations of the United States.

The campaign to be launched by the Road Association will be the most intensive ever carried out in the United States. Charles M. Upham, Business Director of the Association, who is directing the movement, stated today that the 700,000 casualties occurring each year on the street and highway are far in excess of the number that should result from natural traffic hazards.

A national Highway Safety Club will be organized as a vehicle for the spread of constructive highway safety information. Every citizen of the United States will be asked to become a member of this club and to cooperate in an effort to reduce the loss of life on the public street and highway. Membership in the Club will be without charge and will be granted to all persons signing a pledge to practice reasonable caution and courtesy while on the street and highway.

A unique feature of the campaign will be the elimination of the usual list of confusing safety rules and the substitution of the simple ethics of courtesy and caution. "The individual alone is responsible for highway accidents," Mr. Upham asserted today. "The American Road Builders' Association will make its appeal directly to each individual citizen rather than to the masses."

The results of the campaign will be reported during the annual convention of the Association at Cleveland on January 9th.

Let's hope the winter will bring forth a dance middle-aged folk can do without wheezing.

"I care not who makes the country's law if I can pick the juries."
